WHAT MERCHANTXPORTER COORDINATES

■ Range architecture

Shortlist product directions around channel, use case and target buyer.

■ Sample approval

Confirm formula behaviour and physical reference before production.

■ Pack matching

Align bottle, pump, cap, carton and product behaviour.

■ Private label

Coordinate artwork, label, warnings and assortment presentation.

■ Quality route

Check production against the approved product and pack reference.

■ Export preparation

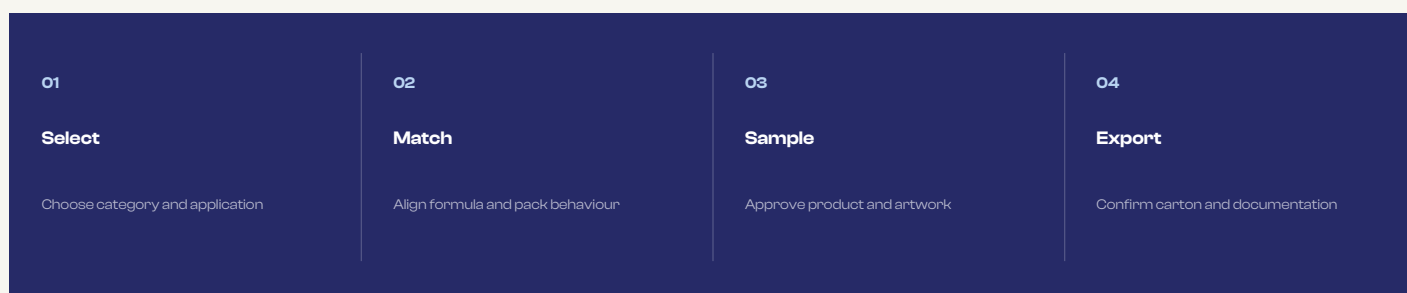

Align markings, master cartons and destination documentation.

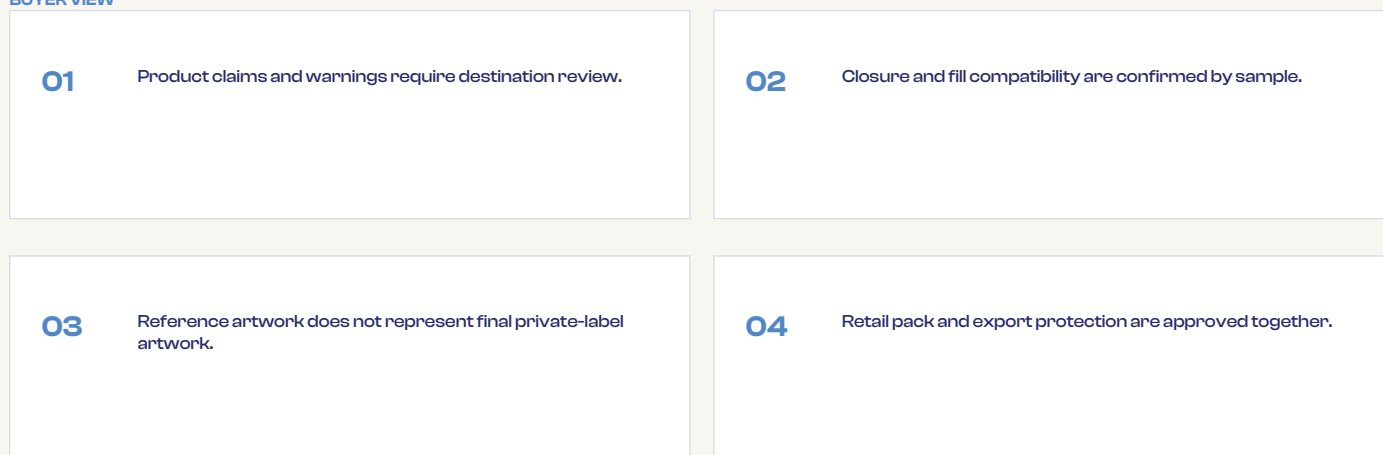

THE RANGE SYSTEM

One fixed product-card system across every care category.

Each product uses the same 1 x 3 grid, the same source-visual scale, a normal rectangular feature area and two packaging lines. No product card expands to fill unused space.

BUYER VIEW

Every final product, claim, component and pack remains subject to sample approval and destination requirements.

THE RANGE

Contents

The full range is organised into five buyer categories. Product visuals appear consistently across every item, with commercial terms handled separately.

01	Household Cleaning & Surface Care	05
02	Automotive Care	19
03	Pest & Animal Repellents	25
04	Water & Aquarium Care	34
05	Soap & Personal Care	36

Eighty-three products in one consistent visual, feature and packaging system.

Reference directions are indicative. Final specifications, components, artwork, claims and packaging are confirmed to brief.
