WHO WE ARE

One accountable sourcing desk between approved formula and market.

MerchantXporter coordinates product direction, specification review, sample approval, pack selection, export preparation and shipment hand-off through one visible workflow.

03

buyer categories

42

product directions

02

pack routes per product

01

accountable coordination point

WHAT MERCHANTXPORTER COORDINATES

■ Formula direction

Use case, performance, fragrance and format aligned.

■ Sampling

Physical product and packaging route confirmed together.

■ Pack matching

Trigger, mist, bottle, sachet, pump, jar or aerosol.

■ Label review

Artwork, claims, warnings and destination needs coordinated.

■ Quality route

Production checks against the approved reference.

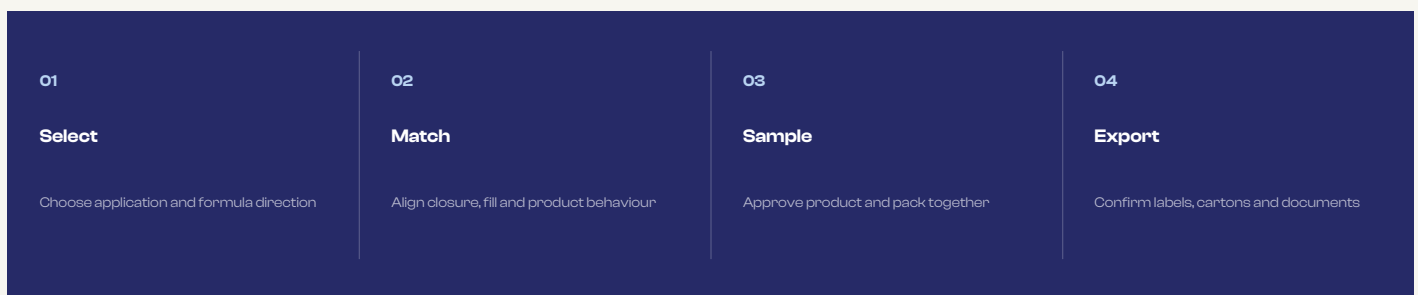

■ Export coordination

Master-carton, marking and documentation requirements aligned.

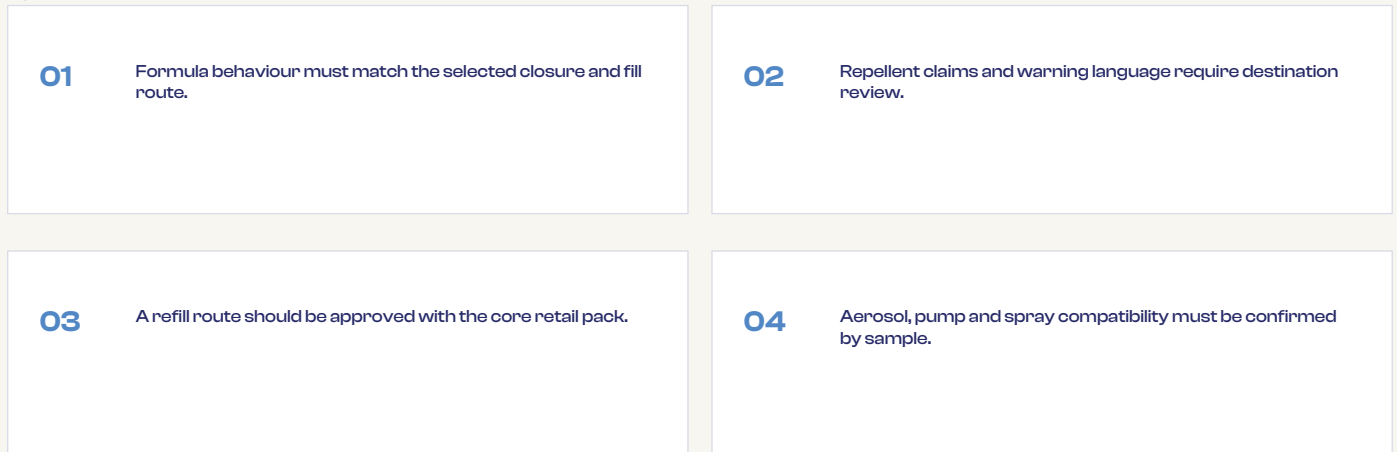

THE RANGE SYSTEM

Build household, auto and pest-care ranges around use case and pack behaviour.

Every product now uses the same fixed card geometry. The formula direction, key features and two product-matched packaging routes stay visible without stretching the grid.

BUYER VIEW

Every final product, claim, component and pack remains subject to sample approval and destination requirements.

THE RANGE

Contents

Every product page uses the same 2 x 3 grid. Unused slots remain the same size and become category notes rather than stretched product cards.

01	Home & Surface Care	05
02	Auto Care	09
03	Pest & Repellent Care	13

Forty-two products in one fixed product-card and packaging system.

Reference directions are indicative. Final specifications, components, artwork, claims and packaging are confirmed to brief.
